EXPERIENCE

Deloitte – Cyber Strategy & Transformation – Analyst II   *June 2023 – Present*

Implemented SSO for major insurance companies for 2 years, resulting in hundreds of successful implementations using Okta and Auth0. My expertise includes Identity and Access Management (IAM), Active Directory (AD), authentication protocols (SAML, OIDC), multi-factor authentication, and passwordless solutions.

Hong Kong Science and Technology Parks Co. – Youth Start-up Internship Programme   *Summer 2022*
CityU EE – Programming Contest – Merit   *2022*
CityU EE3070 – Create IOT Smart Farm and Full Stack website with Arduino   *2022*
CityU EE2004 – Make Pac-Man Game with Assembly Code and C++   *2021*
CityU GE1354 – Build Portable Heart Rate monitor using Python with Micro:Bit   *2021*
Robocon HK – Learning motors and components programming and soldering   *2021*
CityU EE – Programming Contest – Merit   *2021*

PROFILE

Cybersecurity-focused Information Engineer specializing in IAM, AD, authentication protocols authentication solutions, with a strong emphasis on automation and a security-first mindset. Passionate about trending tech, including GitHub open source, LLMs, Hugging Face, TTS, and AI chatbot development within the context of secure digital transformation.
